*WHO Situation Report #114 | May 13, 2020

SITUATION OVERVIEW

Information on the Emergency

The Coronavirus (COVID-19) outbreak began in Wuhan Province, China when 44 patients were reported to show symptoms of an unknown disease in December 2019. On 11 March 2020, the World Health Organisation declared COVID-19 a pandemic. As of 13 May 2020 according to WHO, the number of confirmed cases globally has risen to **4,170,424** individuals and **287,399** deaths. Of these, in the Asian countries included in this SitRep, the number of confirmed cases is **267,543** and **10,802** deaths.

Humanitarian Situation

- Elderly Populations being more vulnerable than other groups, has increased the number of challenges faced by them.
- Most Health care facilities and institutions have requested for support towards addressing COVID-19.
- Uncertainty of livelihoods, especially in terms of daily laborer's
- Most countries and their respective health institutions lack adequate resources to effectively address COVID-19. i.e. PPE, Disinfecting material etc.
- Families and Communities living under Quarantine are facing challenges acquiring essential items such as food and hygiene material needed to combat spread of COVID-19.
- Many organizations have stepped in to raise awareness and to share messages on COVID-19 and precautions that need to be taken.

Gaps in Humanitarian Assistance

- Increased support is needed to ensure the most vulnerable population (elderly) are able to safeguard themselves.
- The number of families living under quarantine is increasing and are in need of nutritional and hygiene support.
- Support towards the managing quarantine centers (Food, hygiene items etc).
- Psychological Support for communities and families of infected/dead individuals.
- While much support is being channeled towards Health care facilities/ institutions and organizations, there is still a gap in available resources of the countries to effectively respond/curtail COVID-19.

ADRA'S RESPONSE

Needs Assessment

A few of our country offices are now able to conduct basic impact assessments and have been working with government and local partners to gather relevant information. The restriction of movement has been a challenge in conducting rapid assessments.

Funding Opportunities

ADRA Regional Office is laying plans to make available match funding that can be made available to leverage funding from other donors and partners. The regional office is currently considering country offices such as Indonesia, Philippines, Nepal, and Sri Lanka to support in leveraging larger scale funding.

ADRA's Response Activities

While having a strong focus on WASH, Health, Food Security, Cash Transfer and Voucher assistance, our offices have also been highly involved in Risk Communication. Our offices are currently making plans for early recovery and linking to development.

RESPONSE COORDINATION

Coordination with other Organisations

Coordination is being carried out at respective country levels through clusters and HCTs where applicable. ADRA Asia has been conducting weekly coordination meetings to understand needs of countries, pool resources, share learnings and identify potential regional funding. ADRA Asia has also been representing in the UN OCHA regional calls on a weekly basis and participating in various working groups and in ADRA's activated global coordination.

Cluster Meetings

Many of the relevant ADRA working groups and Technical Learning Labs have met to discuss potential support that needs to be provided towards the Country Offices. The Steering Committee of the Learning Labs have initiated discussions on the COVID-19 in order to encourage the TLLs to work towards identifying ways to support the country offices.

CONSTRAINTS

Security Constraints

The security constraints remain the same in all countries; ADRA faces a major security constraint due to the risk of staff being infected with COVID-19. In order to minimize the risk, ADRA offices in the 5 countries have taken appropriate steps as per regulations in the respective countries including activating work-from-home, ceasing field activities, provision of training on preventive measures, provision of safety material (masks) etc.

Other Constraints

The lockdowns, imposing curfew measures and the travel restrictions placed in the countries as precautionary and controlling measure is a major constraint for the ADRA teams. This has placed limitations for the teams when attempting to carry out pre-planned activities, identifying & selecting suppliers for emergency response activities and other project activities, ability of ADRA staff to travel to the project locations, having to conduct remote monitoring, inability to interact with the communities in need and more.

BANGLADESH

8,174 - Households benefit from Awareness Raising posters and hand outs, Health Sessions, and awareness rallies

42,670 - Beneficiaries receive face masks, sets of gloves, hand sanitiser/soap, and wash places installed

Food Pack Distribution for poor families:

Quotes

"The support received from the Australian Government through ADRA Nepal, ADRA Australia and OHI as well as local Partner BWSN will be valuable in adding to our capacity to both adequately manage COVID-19 cases and for continuity of essential services" - Sangita Mishra, Medical Superintendent, Koshi Hospital.

"Only when you have been in a disaster that you will fully understand the need for psycho-social support, both for those affected and those who helped the affected." - Yusi Bidi ADRA Indonesia Project Manager

Story/News

ADRA Sri Lanka has provided various hand washing stations established through the ACCEND project. The project has established seven temporary hand washings stations in public places of Maskeliya and Wilgamuwa in order to encourage the public to wash their hands frequently. In Maskeliya, the project has established 2 hand washing stations in the MOH office targeting pregnant mothers who visit for consultation and the public who visit the Divisional Hospital in Maskeliya. In addition the project has also established five temporary hand washing stations in Divisional Hospitals of Wilgamuwa and Maraka, Samurdhi office of Maraka and the Pradeshiya Sabha of Wilgamuwa. IEC boards have also been installed in these hand washing stations to educate the public regarding the accurate hand washing techniques.

Under the Australian Government NGO Cooperation Program (ANCP), our Partners in Nepal are able to pivot their activities to rapidly work with governments and communities to address the COVID-19 pandemic. Our ANCP Partner, **ADRA Nepal** together with their local NGO partner Bagmati Welfare Society Nepal (BWSN), handed over key medical equipment including ventilator, oxygen concentrator, autoclave, and other hospital furniture and fixtures along with N95 masks, medical masks and gloves to Koshi Hospital Biratnagar on 12 April 2020 as part of COVID-19 Response.

Similar PPE items like N95 masks, medical masks and gloves were also provided to Scheer Memorial Hospital, Banepa to support the hospital to be better prepared in receiving COVID -19 patients as well as to protect their staff and clients during essential service delivery.
